## SUSSEX CASE STILL UNDECIDED

By Telegram to The Freeman.  
Washington, April 6.—Unless Germany has accepted responsibility for the attack on the channel steamer, Sussex, by the time the bulk of the evidence dealing with the case reaches the state department, it is expected that the United States will act without waiting on Berlin. Both President Wilson and Secretary Lansing are understood to agree that the summaries of the affidavits, the originals of which now are en route on the St. Paul, due here early next week, showed conclusively that the Sussex was damaged by a torpedo attack. The British and French official reports also emphasize this fact while the French authorities have turned over to the American embassy parts of what they declare is a torpedo found in the wrecked bow of the liner.

There is a growing belief here, however, that before the end of this week Germany will accept responsibility for the attack, explain that it was due to a mistake, disavow it, and promise any reparation which the United States may desire to exact. If this is done then the president and Secretary Lansing will be prepared to reopen the general submarine situation, make it emphatic that mistakes of that character cannot be overlooked, and demand that steps Germany is prepared to take that will prevent them taking place again.

## HOLLAND MAKES DEMAND ON ENGLAND

By Telegram to The Freeman.  
The Hague, April 6.—Holland has demanded from England the return of valuable securities and documents seized in the mails taken from Dutch ships by vessels of the British navy. Official announcement to this effect was made today. At the same time the government issued for publication the diplomatic communications exchanged by England and Holland over the seizure of mails on Dutch ships.

## NUGGETS OF NEWS.

**Casual Events Briefly Told in Telegraph Despatches.**  
By Telegram to The Freeman.  
Newark, N. J.—In her suit for a separation Mrs. Ernest C. Smith charges her husband tried to make her eat an electric bulb, struck her and called her unprintable names.  
Watertown, N. Y.—The state prohibition committee will ask every woman in the state raising chickens to give all eggs laid during the last week of May for the fight against saloons. It is expected 600,000 dozen eggs will be donated.  
Hillsdale, N. Y.—Miss Olive Birdsell put to flight a masher who kissed her while she was filling the tank of her motor car with gasoline. She poured the contents of a gallon can of gasoline over the unwelcome lover.  
Stands High at Exeter.  
Van Deussen Hutton, a senior at Exeter Academy, is spending his spring vacation at the home of his parents, Mr. and Mrs. George Hutton, of West Chestnut street. He is one of the twelve highest pupils in the class, which numbers more than a hundred, and because some of the most brilliant scholars are enrolled at this school, the honor is very high. An epidemic of tonsillitis spread through the school several weeks ago and Hutton became affected. He left two weeks before the term was ended and spent some time in the southern states. When the big fire, which destroyed 26 square blocks of the business houses of Augusta, Ga., broke out, Hutton was in the city and viewed the twelve hours of conflagration. He said that assistance from several neighboring cities was necessary to extinguish the flames.

## FORTIFICATIONS BILL REPORTED

By Telegram to The Freeman.  
Washington, April 6.—The fortifications bill—second of the big preparedness measures—was reported favorably to the house today. It carries direct appropriations of \$21,997,050 and authorizes the war department to enter into contracts act without waiting on Berlin. Both President Wilson and Secretary Lansing are understood to agree that the summaries of the affidavits, the originals of which now are en route on the St. Paul, due here early next week, showed conclusively that the Sussex was damaged by a torpedo attack. The British and French official reports also emphasize this fact while the French authorities have turned over to the American embassy parts of what they declare is a torpedo found in the wrecked bow of the liner.

The outstanding features of the bill are these:  
Huge increases in reserve ammunition for field, sea coast and siege cannon, based on European standards.  
The adoption of anti-aircraft guns.  
Acquisition of the exclusive rights and installation of the Hammond radio-controlled torpedo.  
Fortification of New York and Chesapeake bay with 16-inch guns.  
Fortification of Boston, San Francisco, Hawaii, and the Philippines with 12-inch guns, having a range of 30,000 yards.  
Completion of the fortifications of Los Angeles and Santiago.  
Appropriation of \$1,000,000 to equip private plants with tools and machinery necessary to manufacture standard munitions for the army.  
Provision that government arsenals shall be operated at their full economic capacity.  
Changes in gun mounts to give existing coast defense cannon greater range and accuracy.

The secret hearings of the committee, made public today, disclosed that the European war has convinced army officers that the ammunition reserve, good for only two hours, was hopelessly inadequate. The bill provides \$10,700,000 for the purchase of shells for field and sea coast guns for the regular army. Last year this item was \$1,360,000. The new scheme of fortifying the country and the insular possessions was disclosed in the report. The plan provides for an eventual expenditure of \$82,064,557 for continental United States, and the insular possessions, and \$13,995,000 for the Panama canal, and does not take into account fortifying Alaska, Guam, and Guantanamo. It recommends that future direct-fire coast artillery guns should be at least 16-inch rifles, and that sea coast mortars installed in the future should be of the same caliber.

Provision is made for the construction of experimental 15-inch mobile mortar, and one 14-inch direct fire gun mounted on a railroad car for the defense of unfortified harbors.  
Sixty-four anti-aircraft guns are provided, ten of them for installation in Hawaii and the Philippines. The bill appropriates \$750,000 for acquiring the exclusive rights to the radio-controlled torpedo perfected by John Hays Hammond, Jr., and installation of one unit, preferably at Fischer's Island, N. Y.  
The complete general scheme of fortifying the harbors of the country recommended the ultimate purchase and installation of 22 16-inch guns. Six are provided in the bill, four of them to be placed at Cape Henry, at the entrance to Chesapeake bay, and two at Rockaway Beach, for the protection of New York city and the bay.  
Boston and San Francisco are to be fortified by mounting 12-inch guns on Barbette carriages allowing "high angle" fire and making possible an effective range of 30,000 yards. Seven are authorized in the bill. Seventeen more are provided in the plan of the board of review. Six guns of this type will be mounted in the defenses of Hawaii, and two in the Philippines.

On its own initiative, the committee included in the bill \$1,000,000 to equip private munitions plants with jigs, dies, tools, and machinery necessary for the manufacture of American standard guns, ammunition, and other munitions.  
Experiments by army ordnance officers showed that the effective range of existing coast artillery could be increased about 50 percent by changing the mountings to permit a greater elevation of the guns. The bill provides appropriations for raising the possible angle of elevation of most of the direct-fire guns, and for the construction of Barbette carriages to convert direct fire into high-angle fire guns.  
No provision is made for the defense of the Panama canal. That Joseph Sprague, Frank Elmendorf as secretary of the United States, and Miss Marion manifest interest of the United States to make purchases in limited quantities abroad. The bill also contains a provision that the government shall not pay more than 53 cents a pound for powder except for small arms ammunition. Purchase from private manufacturers is also limited by a provision that the prices paid shall not be in excess of 25 percent more than the actual or estimated cost of manufacture by the government.

**Newburgh-Albany Steamer.**  
The Central-Hud-on steamer Tremper will leave Kingston, April 10, for Albany and will make the trip every other day until further notice.

TROOPER OF 7TH U. S. CAVALRY. (INTL. FILM SERVICE.)

TYPE OF TROOPER NOW CHASING VILLA.  
This picture of a trooper of the Seventh U. S. Cavalry, now running down the bandit Villa, was made in Mexico near Casas Grandes, just before the column went south and engaged the Villista forces at San Geronimo ranch.  
The trooper is here shown in full equipment, and is wearing goggles as a protection against the heavy alkali dust of the Mexican desert.

## PREPAREDNESS TALK A FEW REQUESTS THIS EVENING

The need of preparedness by the United States will be the subject of a lecture, accompanied by pictures, by Uriah MacClintock at the high school auditorium at eight o'clock this evening.  
The lecture will be free. Accompanying the lecture will be one hundred lantern slides, many of which are in colors, which depict the defenses in various parts of the United States and its insular possessions.  
The lecture will be given under the auspices of the National Security League, a branch of which was organized in this city some time ago.  
There has been a vast amount of interest displayed in the matter of preparedness and tonight's lecture is expected to draw a large crowd. The doors will be open at 7:30 o'clock and the lecture will begin at eight o'clock.

## "OAK FARM" A HIT.

Young People of Church of Comforter Presented Successful Play.  
Wednesday evening the three act comedy drama "Oak Farm" was presented by the young people of the Church of the Comforter and scored a big success at the Y. M. C. A. auditorium. From the rise of the curtain to the final scene the performance held the close attention of the audience and was without doubt one of the best amateur shows presented in some time.  
William S. Wood as Silas Weatherly; Charles O. Kelsey as Donald Weatherly; George Hudler as Joel Weatherly; Eugene Freer as Jonathan Prune; C. A. Raschke as Joseph Sprague; Frank Elmendorf as secretary of the United States; and Miss Marion manifest interest of the United States to make purchases in limited quantities abroad. The bill also contains a provision that the government shall not pay more than 53 cents a pound for powder except for small arms ammunition. Purchase from private manufacturers is also limited by a provision that the prices paid shall not be in excess of 25 percent more than the actual or estimated cost of manufacture by the government.

**Man Found in River.**  
The body of an unidentified man was found in the river opposite Castleton at 3 o'clock Tuesday afternoon. Although the pockets of the man's clothing were turned inside out, no evidence of foul play was found on the body. Dr. W. F. Rafferty, coroner, will make an investigation to ascertain the man's identity. The man was about thirty years old, smooth face, about five feet, eight inches tall. He wore black trousers, net undershirt, brown socks, black lace shoes and black belt. The condition of the body would indicate it had been in the water several weeks. The body was taken to undertaking rooms in Castleton.

## WIVES AS FIRST AID TO SENATORS

Senator Sage's Sarcastic Suggestions to Solons on Suffrage Sentiment—Samson's Strength a Moral for Men in Toils of Circles of Feminine Fame.  
By a rising vote the state senate at Albany approved the advancement of the woman suffrage referendum resolution to the order of final passage. The vote was 29 to 13 and Senator Brown said after the vote that he would not block the passage of the resolution on today's calendar.  
Senator Brown and Senator Henry M. Sage of Albany poked fun at their fellow members as men afraid to stand true to their convictions and afraid to say "no" to a woman.  
"We all know why my referendum is going to pass," said the senator from Albany. "It wouldn't have any chance on its merits, but it is going to pass because a majority of you men don't seem able to say 'no' to a woman. But because you have yielded against your convictions, it won't help you any. This is the most promising senate I ever saw. It's good on promising and it gave the women some promises. But don't you know what a woman does to a man when she gets the upper hand? Why didn't you think about that? Why didn't you recall the story of Samson and Delilah? Remember what time did when she got men under her control—she turned them into swine and drove them over a precipice."  
"I knew when I voted for the referendum the last time that it would be beaten, but I thought the defeat would put an end to see this senseless agitation. I see now I was wrong and I will not repeat the offense. As for you men who are voting for this, I want to say that you had better send home and get your wives to come to Albany and take care of you."

**Presbyterian Church Election.**  
The annual meeting of the Roundout Presbyterian Church will be held at 7:30 o'clock this evening at the chapel for the election of three trustees to succeed Allan Hammond, Joseph Powley and B. M. Tremper and for the transaction of such other business as may properly come before the meeting. Interesting reports on the finances of the congregation will be presented by the trustees, the session and other societies showing a gratifying increase in offerings for benevolences and other objects.

**Daughter Disposed of by Will.**  
By the will of Mrs. Sarah J. Adams, offered for probate at Newburgh, her husband, from whom she was separated in life, is left \$1 of the small estate and the custody of their minor daughter is devised to a sister. The husband will contest the will.

## VILLA GAINING ON PURSUERS

By Telegram to The Freeman.  
El Paso, Tex., April 6.—Five hundred more Carranza soldiers arrived in Juarez during the night. According to reports that reached here eight cars carrying soldiers with drawn from the campaign against Francisco Villa were brought into the Mexican town under cover of darkness. The reason for taking these soldiers from the southern garrisons just at the moment when Carranza officials claim the capture of Villa is only a matter of three days or so is not known in El Paso, but this city is becoming more than ever the central point of the border situation.  
As the chase for Villa lengthens El Paso is the logical supply base for the Pershing expedition, but there is as yet no indication that the Carranza government will yield to the request that the American troops be allowed to utilize the Mexican railroads.  
Latest reports from the south indicate that Villa has gained on his American pursuers, who are handicapped by the lack of supplies and fresh cavalry mounts. On Wednesday morning the bandit chieftain, according to Mexican advices, was at Souillo, 100 miles southeast of Chihuahua City.  
The same reports stated that Villa and his small band of "golden ones" were riding at full speed on picked horses, of which "Pancho" and his bodyguard have not lacked since they reached a district that has long favored the Villa cause. This indicated that Villa had not been wounded, as Carranza generals have confidently claimed, or that his injuries at any rate were not severe.  
Behind Villa were said to be traveling the faded horses of two American cavalry troops, probably part of the famous Seventh. The American soldiers were making a hard race of it, but carrying the odds that must attend when a large body of mounted men pursue a handful in such rugged country.  
The pursuit has carried the American soldiers 300 miles, as the crow flies, from their main base at Columbus, N. M. They are within touch of the Mexican Central railway, free use of which would permit them to use El Paso as the base. Ammunition and supplies could be shipped direct from here. With Columbus as the base the American supplies are thrown 100 miles off the direct route.  
Every mile that the Americans advance adds to the peril that surrounds them owing to their long, thin line of communications. The Carranza government recently announced that the United States had agreed to withdraw its troops when Villa's trail was lost, and there were intimations today that the Carranzistas were making broad hints that this time had come.

## FRENCH ADMIT GERMAN ADVANCE

By Telegram to The Freeman.  
Paris, April 6.—Strong German attacks were launched both northwest and northeast of Verdun last night, the French war office stated today.  
After repeated checks in which they suffered enormous losses, the Touts finally succeeded in entering Haucourt.  
Violent counter-attacks were made by the French to the west of the Meuse which gave them possession of Bois Carre, northeast of Avocourt.  
A terrific bombardment by the Germans on the Avocourt-Bethincourt front preceded the attack against the salient which the French hold in that district. This was followed by attempts to capture Bethincourt, but the Germans were driven back with bloody losses. These attacks were followed by still others farther to the south, and there the Germans had better success, taking Haucourt.  
East of the Meuse the Germans delivered two attacks north of Caillette wood, but these were repulsed, the war office announced.

## CONSCRIPTION FOR MARRIED MEN

By Telegram to The Freeman.  
London, April 6.—The vital question of extending conscription to married men throughout the British Isles, including Ireland, was under discussion today by the cabinet.  
According to the Times the cabinet is taking into serious consideration, after long delays, the acute question of the supply of men for the army.  
"There is great anxiety among the ministers whether to favor an extension of the compulsory service act or not," says the Times. "If the parliamentary situation is difficult, the demands of the war office are inexorable. The fact is that the army needs more men to win the war than can be supplied by the military service act, and the Derby recruiting scheme, and it is impossible to believe that its appeals will not be answered in full by the cabinet. The decision should be made within the next few days, and parliament will undoubtedly be called upon to transact serious business before the Easter recess."  
There is bitter opposition to the extension of conscription to Ireland, and there are many who openly predict serious trouble if the attempt is made.

## FOR TUBERCULOSIS HOSPITAL PATIENTS.

The twenty-three patients at the Tuberculosis Hospital were remembered generously during the month of March by the many friends of the hospital, as follows: Mrs. B. Herb, Sankraut; Mrs. Brandon, magazines; Mrs. Darling, flowers; Mrs. Elting, magazines; Sturgesant barber shop; Epworth League, Clinton Avenue M. E. Church, magazines; Mrs. F. C. Powley, women's underclothing and hosiery; Mrs. A. Freeman, women's coats and shoes and men's clothing and shoes. There are five young people now at the hospital. A movement is now on foot to procure a Victoria for the hospital. Such an instrument would indeed prove a boon in the way of cheer and entertainment for the patients, especially on those days when because of bad weather, friends cannot get to the hospital. Any contributions for this Victoria fund will be very thankfully received.

## LAST OF COMMISSION MEN.

A bulletin announced by Commissioner Wilson and available at the department of agriculture, Albany, contains a list of the licensed commission merchants in the state. It gives the name of the firm and addresses of more than 200 commission concerns in New York city and the commodities each one deals in. Each firm is required to give a bond of \$3,000. It is pointed out in the bulletin that if "shipper" of farm products will make shipments of their farm produce to the firms listed they will be assured of having the protection of the law for the regulation of the business of commission merchants. It is suggested that such shipments be marked "To be Sold on Commission."

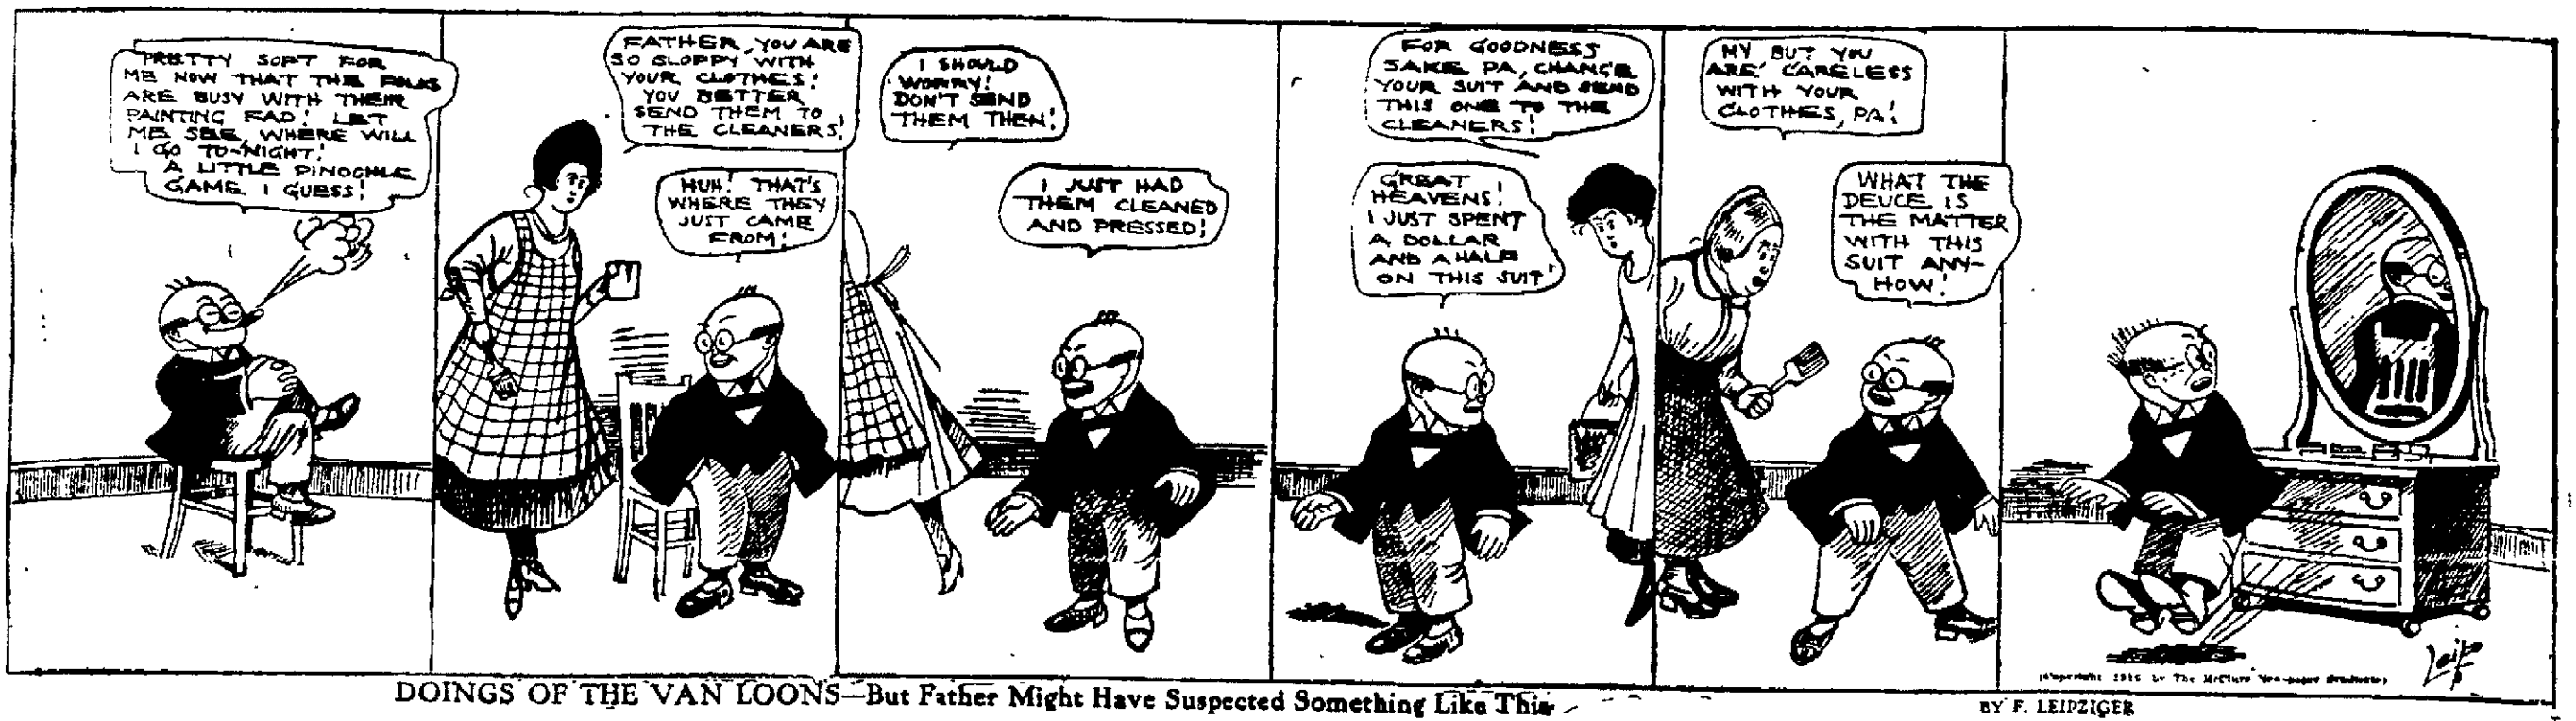

## WHO OWNS THIS AUTO.

**MORE ABOUT FIRELESS COOKER.**

For long, slow cooking the cooker is unsurpassed. Meats that are tough and need long cooking will be tender and delicious cooked the fireless way. One of the things to remember in fireless cooking is that little water is needed when stewing, as there is little evaporation. When using the radiator, as is best in nearly all cooking, heat them until they scorch a piece of paper at once when laid upon them. Have the pot roast in a tight vessel and boiling hot when it is placed on the radiator, then cover and let cook until tender. Another radiator placed on top will hasten the cooking but need not be used for a stew.

For steaming puddings and brown bread, the cooking of rice, oatmeal and other cereals, for baking fruit cakes which are often so hard to bake in the oven, the cooker is an ideal saver of fuel and time.

The country housewife, as well as the city one, may prepare her Sunday dinner, go to church and enjoy the sermon and a chat with her friends without hurrying home to cook dinner, for it will be all ready, never overcooked, boiled dry or underdone in the fireless cooker. By careful planning one can cook a minute now long certain foods need to cook and results never vary.

The flavors of meats, fish or fowl cannot be surpassed in comparison with other ways of cooking, for by the slow process flavors are developed and brought out, the juices and natural flavors preserved.

Chicken a la Fireless.—Prepare the chicken as for frying, brown it in a little butter until all sides are evenly browned, in the dish in which it is to be cooked. Season well. Place a hot stone in the cooker, put in the pot tightly covered. Put down the cooker lid and fasten tightly. Cook three hours for a five-pound chicken. When ready to serve place the pieces on the platter and make a gravy with thickened cream or top milk. This may be poured over the chicken or served in a gravy.

## SPRING FEVER STILL PREVALENT

Spring fever must have been in the air Wednesday as workers in two Kingston plants quit work and today two strikes are in progress, one at the American Cigar Company's plant on Broadway and the other at the Herbert brush factory on Cornell street.

At the cigar plant, bunchers and rollers are out and will formulate demands at a meeting in Cook's Hall this afternoon. Manager Schlesinger said there was no change in the situation this morning. A small crowd of boys and girls approached workers on Broadway today in the effort to get them to join the strike. Workers claim that nearly half the 300 employees are out.

At the Herbert plant in Cornell street upwards of 100 drawers left the shop Wednesday afternoon. It is said they ask an increase to 35 cents a thousand holes. At the time it was said that the demands of the men were not known.

## SYMPHONY CONCERT IN OPERA HOUSE

The April concert of the Kingston Symphony Orchestra will be given in the Kingston Opera House on the afternoon and evening of April 25. Announcement of the date on which tickets may be exchanged will be made later.

### SOCIETY NOTES.

The Loyal Friends' Aid Society will give a dance Sunday evening, April 9, at the Hebrew school on Post street. A large crowd is expected and a small price of admission will be charged. Refreshments will also be served.

Herman G. Rafalowsky of 524 Broadway has returned from New York city, where he attended the wedding of his sister, Miss Rose Rafalowsky, to S. G. Simons. On their return from a wedding journey to Washington, D. C., Mr. and Mrs. Simons will make their home in this city.

### Federation Meeting.

All members of the executive committee of the Federation of Women's Clubs are reminded of the special meeting of the committee to be held tomorrow, Friday morning at 10 o'clock at the Y. M. C. A. building, St. John-Grube.

At the parsonage of the Warts Street Baptist Church Wednesday evening the pastor, the Rev. A. K. Fuller, united in marriage Miss Margaret Grube and Abram S. Loun, both of this city. Mr. and Mrs. William Dunbar, for whom Mr. and Mrs. St. John had acted in a similar capacity a week ago, were the bridal attendants. Mr. and Mrs. St. John will make their home in Kingston.

### Symphony Concert.

So many inquiries have come to the Symphony Society relative to the date of the April concert, that the society feel that this explanation should be made at this time: The date for the April concert was announced to be the 10th. Since there was no possible anticipation, that the board of education would refuse the use of the high school auditorium for this concert, the educational law relative to such matters remaining the same as when the previous concert was given at the high school. Since the board of education has so refused, unless no admission is charged, in spite of the absolute educational work of the orchestra and since the official refusal of the use of the building was not received by the Symphony Society until April 4th, the matter of securing another suitable date and place on such short notice has been a staggering proposition. Although a serious financial handicap to the society they feel the only other auditorium where they can properly present this concert to their patrons, subscribers and the general public, including the school children, will be the opera house. The society is unwilling to give this concert on the usual prayer meeting, night, thus depriving many of the privilege of attending. Nor are they willing to give the concert during the Passover season or Holy Week.

The public will readily see the predicament the society is in, and they are asked to have patience a day or two longer until the date of the April concert can be decided upon. As soon as possible this date and the time and place for the exchange of tickets will be announced.

### Loughran-Bridges.

The home of Mr. and Mrs. James Wood Lasher on West Chestnut street was the scene of a notable wedding on Wednesday evening when at 7 o'clock Miss Althea Hagadone Briggs, sister of Mrs. Lasher, became the bride of Dr. Robert J. Loughran of 45 West 52nd street, New York city. The ceremony was performed by the Rev. Charles G. Ellis, pastor of the Rondout Presbyterian Church. The bride, who was given away by her uncle, John W. Weber, of Brooklyn, was attended by little Miss Mary Kiersted of New Rochelle, a niece of the groom. Christopher K. Loughran, brother of the groom, acted as best man. Among the guests from out of town were Mr. and Mrs. John W. Weber, Mr. and Mrs. Edward Luckenbach, Mr. and Mrs. Henry O. Martin, Mr. and Mrs. J. Lewis Luckenbach, Miss Martha Becker, William Becker, Frederick Becker, Mr. and Mrs. Berthold Fallert, Miss Weber, Miss Alberta Weber and Miss Dorothy Luckenbach, all of Brooklyn; Mr. and Mrs. Lasher, Mr. and Mrs. Van Euen, Mr. and Mrs. Harold S. Loughran and little daughter, Mary Kiersted Loughran, of New Rochelle; Dr. and Mrs. Robert H. Halsey, Dr. and Mrs. Edward W. Peterson, Dr. and Mrs. Godfrey R. Pisek, Dr. and Mrs. Samuel Lloyd, Dr. and Mrs. Henry Dawson Furness, Dr. and Mrs. Frederick W. Loughran, Miss Spence Loughran, Mr. and Mrs. Frank E. Loughran, Dr. and Mrs. Parker Syme, Richard W. Barrett, Mr. and Mrs. Alexander H. Candlish, Mrs. Edwin Young and Miss Mary Young, Mr. and Mrs. Frederick Hubbard, all of New York city. On their return from their wedding journey Dr. and Mrs. Loughran will make their home in New York city. The bride, by her gracious and charming, womanhood, has endeavored herself to a host of friends in this, her home city. Dr. Loughran, eldest son of the late Dr. Robert and Mrs. Loughran, of this city, a graduate of Princeton and Columbia Universities, has since leaving Kingston, most successfully practiced medicine and surgery in New York city, where he is also professor of otology at the New York Post Graduate School and Hospital.

George Hott has returned from Palm Beach, Florida, where he spent the winter on business. He reports a very busy season and fine weather, the thermometer ranging around 70 degrees most of the time. Quite a contrast to the weather we have had here.

JIMMY CALLAHAN

### JIMMY CALLAHAN'S RULES.

In outlining his training policy Manager Callahan, of the Pirates, makes it plain that he will not insist on his men being teetotalers, although he demands temperance, not only in drinking but in eating and everything else.

"An occasional glass of beer or a waltz with any athlete and some times does him a lot of good," said Callahan in discussing his stand on liquor. "I don't drink myself, but I may invite some of the boys to have one with me, if I figure at any time that they need a stimulant cigarette smoking, not only because I think it does an athlete no good, but because I don't like the looks of the thing. I mean must all be in their rooms at 11:20 at night and some there is a uniform every day there is a game not later than 1:30."

"These are my general rules. I do not intend to hamper my men with a complicated set of regulations. Every man will be allowed as much liberty as possible, so long as the privileges are not abused. If any of them show an inclination to overstep the prescribed boundaries, then we will consider their cases individually and deal with them accordingly."

### WEST HURLEY.

West Hurley, April 6.—Mrs. W. H. Slater does not gain very rapidly. Her daughter, Mrs. Whitman, of Albany is caring for her.

Mrs. Frank Van de Bogart and daughter, Phayetta, and Mrs. L. D. Hoyt and daughter, Emma, were in Kingston on Wednesday.

Mr. and Mrs. Moses Every and son, Ralph, have returned from visiting friends at Kingston and Rifton.

W. H. Burhans and Miss Mary Lasher were in Kingston on business on Wednesday.

Michael Joyce, Sr., is slowly recovering from his accident. It is hoped he will soon be able to get out.

Joseph Joyce of Guilford, Conn., is visiting his father, Michael Joyce, Sr.

George Hott has returned from Palm Beach, Florida, where he spent the winter on business. He reports a very busy season and fine weather, the thermometer ranging around 70 degrees most of the time. Quite a contrast to the weather we have had here.

### SEPARATE SKIRT.

Style Tips About This Revived, Popular Garment.

The separate skirt is in for an excellent season. Always the outing period is favorable to the skirt of crash linen, velveteen, corduroy and kindred fabrics. To these has been added recently an exceedingly fine silk jersey with a satin finish, which may be considered the skirt de luxe of the season.

If one chooses a velveteen skirt it must be of a pastel color. To wear a skirt of black velveteen for sporting purposes is to advertise oneself behind the times. The models of delicate blue, pale pink, violet, canary, sage green and rose are exceedingly modish. To be sure, the wide velveteen is a little listed. It must be remembered that the velveteen is newer and smarter than the corduroy.

Should velveteen be considered too delicate for wearing in serviceable qualities there is the linen alternative in heavy weave and in the so called pastel or rainbow nances. There is little attempt to drape these skirts, but the lines are very full and many of them have pocket accessories.

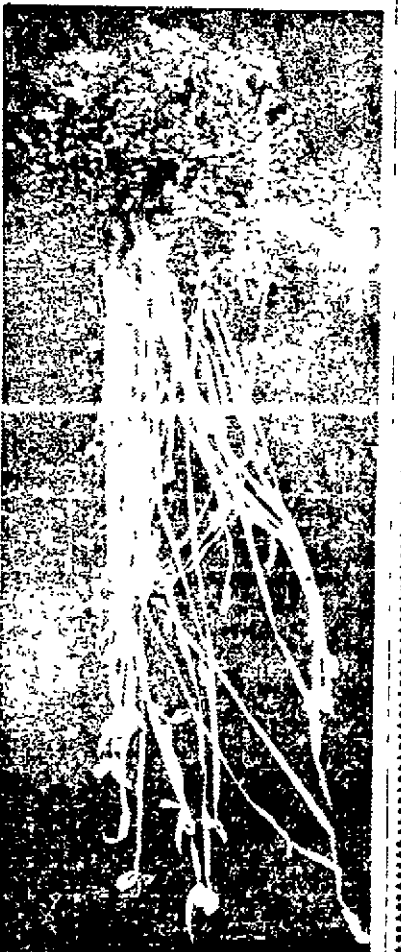

For dressy purposes there are separate skirts of tulle, principally in the black and white combination, or of silk tulle made with platings or ribbons to go with the separate blouse of georgette crepe, which may be garnished with bead embroidery or applique motifs. The tulle taffeta skirt will always find a place in the sartorial affairs of the practical woman and not, it is much more dressy in its lines and trimmings than during the past few seasons.

One cannot omit mention of the broadly striped lavens and heavy cotton fabrics that are offered in the new skirts. To say that they are striking is to put it mildly. Anything less than an inch wide for the stripes is regarded as too mild and unobtrusive to be worthy of a place on fashion's schedule. Black and white stripes come in for approbation, but they by no means have the field to themselves.

### FOR SPRING BRIDES.

Early Weddings Will Require This as One Accessory.

One of the daintiest emblems of the Easter wedding is a bride's bouquet of lilies of the valley. The one pictured is exquisitely set in a sheaf of

UP THE AISLE.

leaves, the stems wrapped with wide white satin ribbon while the flowing streamers with knotted ends are of a narrow matching ribbon.

### Spring Housecleaning.

Shake curtains free from dust; double each curtain and baste the ends together, using strong thread and short stitches, soak in cold water, wash and starch; loosen one end of clothesline free from knots and slip it through all the curtains, replace line and pull basted ends straight. Do not sprinkle when dry, but press with hot iron before taking out hanging. Do not boil over curtains, but add coffee to last rinse water. Curtains wear better if the ends are reversed occasionally.

### New China Book Ends.

Book ends are always interesting, and unusual ones are sought after as gifts for all occasions. There is a new set in china which is particularly pretty. The design shows one book lying flat, its covers of dark gray, with yellow edged leaves and another book, standing upright on the lower book, its pages open. The ends are quite heavy enough for all purposes, and the coloring of the china is particularly attractive.

### Freshen Baby's Couch.

Quite often the upholstery of a baby's carriage becomes faded worn or soiled. But a new cover can be made easily. Cut a pattern the size and shape of the back and sides of the carriage, and make a cover to fit out of white type or a natural colored linen. Bind with a wash band and make button-ties along the edges. On the upholstered part of the carriage sew pearl buttons and button the cover on.

### Used-to Places.

One day my small niece was told to put a piece of paper in the scrap basket. She went to the wrong corner of the room and returned, saying: "Oh, silly me. I put it where the scrap basket used to be. I always go to used-to places."—Exchange.

### Made a Social Outcast.

In court circles in England it is a serious matter to incur royal displeasure. The man or woman who does so intentionally ceases to be recognized by his majesty, which means social extinction. The offender's name is struck out of the visiting list of every person who is anybody in society, and should the offender be a man he is positively informed that his resignation from his club or clubs would not be out of place. No man or woman of social repute will in future know him, and if he is in the army or navy he has no option but to resign, for he will find himself out dead by every one of his brother officers.—London M. A. T.

### Obliged to Leave Early.

"Daughter, your new beau doesn't remain very late. The last one used to hang around until the milkman called."

"Well, you see, dad, this one is a milkman."—Louisville Courier-Journal.

### Italian Staff of Life.

To those who know the Italian staff of life only in one or two forms it will come as a surprise that there are some forty-four varieties, all carefully differentiated. Neapolitan macaroni is usually made simply of household flour, well mixed, rolled flat and then shaped by various machines, but the paste may be mixed with other ingredients. Thus tagliatelli is produced by the addition of eggs, and into the composition of gnocchi potatoes, butter and cheese enter. Italian children may learn their letters and numbers from edible copies, and leaves and shells are some of the many forms which macaroni takes as biscuits do with us.—London Chronicle.

### A Happy Accident.

"I bet your father had trouble reading 'Fortunately for me, he had. I told him that after the accident his temperature went to 104, and he sent me a check for the amount."—Life.

### Composition of an Army.

In the United States an army is made up as follows: One hundred men constitute a company, four companies a battalion, three battalions a regiment, three regiments a brigade and from three to four brigades a division, although we have no division classified as such in our army.

In Germany and Great Britain there are about 20,000 men in a division and 40,000 in an army corps. In the German organization a division of infantry is made up of two brigades, a brigade of two regiments, a regiment of six battalions. A cavalry division is composed of three brigades of two regiments each and two or three batteries of horse artillery.—New York Times.

### Fairly Healthy.

"Now, the boy I want in this office must be honest, bright, clean and healthy. Have you perspiration?"

"Oh, no, sir. I never had anything but whooping cough and the mumps."—Exchange.

### Splendor of Venus.

Venus is the most brilliant of all the planets. When east of the sun she appears in the west after sunset, but when near the western elongation she gives only mediocre performances before sunrise. Through the telescope she presents much the appearance of a burnished silver without spot or blemish. So dazzling is she that astronomers have been able to discover little concerning our neighbor, except that she is surrounded by an atmosphere filled with clouds, making it doubtful whether any view of the solid body of the planet can ever be obtained. Even through that veil she is sometimes so bright as to cast a distinct shadow.—London Telegraph.

### Impossible.

"I see the new stylish costumes from Paris are sensible."

"That's impossible."

"Why?"

"If sensible they couldn't be stylish."—Exchange.

everyone who has watched the work accomplished since the beginning of the European war by General Sam Hughes in Canada will follow the investigation of graft and extravagance which have been rending the Dominion government for several years. Sir Sam has made a vehement denial of being implicated in any of the charges and will promptly return from London, where he went for a brief visit, to face his accusers. Canadian newspapers state that in his absence Sir Sam has few defenders. He offended many officials at the outbreak of hostilities by insisting on strict economy in the purchase of military equipment.

## METEORIC CAREER OF DR. SEBRING

Busy in the Spotlight During His Residence in Kingston, Dr. Sebring Blossomed Out as an Orator and Became a Political Campaigner.

Of the meteoric careers which have attracted attention in Kingston, that of Dr. William C. Sebring, who has been cited to appear in surrogate's court, as stated in The Freeman Wednesday, in its way was probably one of the most interesting although not spectacular. He is a son of the Rev. Dr. A. J. Sebring, who for many years has been pastor of the Dutch Reformed Church at Katsbaan, and who has tried unceasingly for nine years to find some trace of his son's whereabouts. He was well educated and after being admitted to the practice of medicine he settled for a time in Orange county, where he married. His married life was always happy and he appeared to be devoted to his wife until her death which occurred in 1903. Dr. Sebring was appointed administrator of the estate.

A Radical of Extreme Type.

Soon after coming to Kingston, Dr. Sebring became interested in politics and in the Parker campaign of 1904 he was employed by the Democratic state committee as a spellbinder. His political affiliations were with the late Dr. Chandler A. Oakes, and he became known for his radical tendencies and utterances. One of his most radical speeches was his first one, delivered at the famous Fourth of July dinner at the Kingston Hotel, which was arranged by the late Hon. William Lounsberry, at which Dr. Sebring in effect said that if he loved his own way he would burn the Rockefeller in their own oil and tie the Vanderbilts to their own railroad tracks and allow their own locomotives to run over them. All his speeches were not of that calibre, however, and he delivered an address on General Sullivan at one of the meetings of the New York State Historical Association at Glens Falls which was a classic for its just estimate of General Sullivan's character and accomplishments.

After Mrs. Sebring's death, Dr. Sebring became interested in many projects besides politics. At one time he became seriously ill while traveling and was taken to a hospital in Troy, where he developed pneumonia. He was ill for a long time and was considerably weakened when he returned to Kingston.

Revived An Old Love Affair.

Before his disappearance, he told intimate friends that he intended to make a visit to an old friend in Columbia county who had shown him attention when he was a young man and who had remained unmarried. It was his intention, he intimated, to make a proposal of marriage to this friend, and after drawing a considerable sum of money which belonged to the estate, he went to the Kingston Club where he wrote several letters.

His movements after leaving the Kingston Club were uncertain. It was sometime before an investigation was begun to discover his whereabouts, and by that time some of the people who undoubtedly saw him were puzzled and uncertain as to the exact time when they had seen him.

Disappeared in Columbia County.

It is certain that he visited Columbia county and drove some distance from Hudson to the farm of the woman he intended to visit. He did remain there for several days and during that time visited surrogate's court, as stated in The Freeman Wednesday, in its way was probably one of the most interesting although not spectacular. He is a son of the Rev. Dr. A. J. Sebring, who for many years has been pastor of the Dutch Reformed Church at Katsbaan, and who has tried unceasingly for nine years to find some trace of his son's whereabouts. He was well educated and after being admitted to the practice of medicine he settled for a time in Orange county, where he married. His married life was always happy and he appeared to be devoted to his wife until her death which occurred in 1903. Dr. Sebring was appointed administrator of the estate.

The fact that he had disappeared came to light through inquiries instituted by his Columbia county friend, and his father, the Rev. Dr. A. J. Sebring, at once came to Kingston and sought the aid of the doctor's friends here. Other friends were enrolled in the movement to ascertain his whereabouts, and the search made was systematic and thorough. Occasionally rumors were heard that he had been seen in New York or Albany, but when traced to their source nobody apparently had seen him. The efforts to locate him were extended to different parts of the country, especially in the southwest, where he had at various times expressed a desire to conduct farming on a large scale.

Many May Have Seen Him.

He was practically given up as having died somewhere, and being buried without recognition when various people began to state that they had seen him but were not recognized by him. All agreed that he showed a disposition to escape recognition and to acknowledge his identity. One acquaintance claimed to have met him on a New York Central train between New York and Albany and to have chatted with him, but the doctor refused to say anything about his past or the causes for his disappearance or his permanent address.

Courtney Sebring, his son, resided for a time in Kingston and attended school here. Later he went to Katsbaan and resided with his grandfather. Both the son and father of the doctor have been heartbroken over his disappearance but until now have never expressed themselves in regard to the matter. It is understood that the son's estate practically disappeared before the doctor went away.

Man and the Mouse.

Did you ever see a mouse in a revolving cylindrical trap trying to climb up what it thought was an endless wire ladder? Well, that is a picture of man in the universe. And, like the mouse, it is his own active desire that keeps the whirling cylinder forever in motion.

says the cynic—but, we live and learn and at some time of life many coffee drinkers wake up to the fact that the drug, "caffeine," in coffee is "getting them."

Headache, nervousness, biliousness, heart flutter, insomnia, etc., are often signs that coffee is getting in its work; and the growing knowledge of its true nature has led thousands of former coffee drinkers to turn to

## INSTANT POSTUM

This famous food-drink tastes much like mild Java coffee, but is entirely free from caffeine and other harmful elements ever present in coffee. It is made of whole wheat and a small portion of wholesome molasses, and permits Nature, unhampered, to carry on her work of daily re-building brain, nerves and muscle.

Postum comes in to forms: The original Postum Cereal must be boiled; Instant Postum requires no boiling—a level teaspoonful in a cup of hot water makes a delicious drink—instantly. Both forms are equally delicious and the cost per cup is about the same.

## HIGH SCHOOL NEWS NOTES

Wednesday morning the "Burroughs Junior Audubon Society" of the school had charge of the exercises in assembly and carried out a very acceptable program. The first number was a sketch on John Burroughs which was read by James Winters. Next Miss Phillips read a letter that Mr. Burroughs sent recently to the club. Frank Supplies then read an essay relating to birds, entitled "An Inquisitive Boy." After this "The Coming of the Phoenix" was recited by Miss Elinor Kerr, and an interesting true story about a robin was read by Howard Korb. Miss Anna Griffin then offered an interesting and well composed original fairy story entitled "The Crane." Miss Charlotte Kennedy next recited a selection called "Spring," and the program was completed by a waltz proved to be a good climax, when Miss Dorothy Brown gave a splendid recitation, "The First Blue Bird." This little departure from the regular routine of the early morning's work was greatly appreciated by the students who responded to the various numbers on the program with pronounced applause, and they would no doubt also appreciate a like action on the part of some of the other organizations of the pupils in the school. It is no mere supposition that these short little performances, enlivening the young workers, tend to produce better results throughout the day's classes.

### Glee Club Concert.

The high school Glee Club concert has been under way for some weeks past and now the time is fast approaching when it will be produced. Miss Paulding, who is directing the concert, is bent upon making this one better than ever, and those who are acquainted with the concerts of recent years will realize that that means something. There is a very large number of glee men and young ladies in the club this year, and there is a goodly supply of all the desired voices. When the curtain is thrown back at 8:15 this Friday evening the club will no doubt be greeted by an auditorium full of its friends, as there is to be only a small admission of 35 cents charged.

### Junior Play.

The Juniors will present their comedy on Wednesday evening, April 19. The rehearsals promise great results, and all the class is earnestly striving to make this entertainment a complete success. The tickets for the play, selling at 15 cents apiece, have been printed by the high school press, which has succeeded in turning them out on exceedingly short notice, and the students are buying them as though money was a secondary consideration.

The senior play which will be produced the Friday after Easter, is also promising great possibilities. These two productions, the Senior and the Junior play, will not conflict even though they are to be produced within a couple of weeks of each other, for the object of the junior comedy is to amuse, create a hearty laugh and be forgotten, and the price is 15 cents each, while the senior play, "The Rose of Plymouth Town," is more on the order of a high class dramatic theatrical, and the seniors intend to charge the varied prices for the different seats in the house, which are usually charged in this city for high class drama. Both productions will no doubt prove great successes.

### KERHONKSON.

Kerhonkson, April 6.—Edward Van Demark spent the past week at Peekskill attending the New York conference.

The remains of Alfred Schoonmaker of Newburgh were brought here Friday by train and met by Undertaker Doyle. Funeral was held at his brother's, John Schoonmaker, at Pataukunk, on Saturday at 2 o'clock. He leaves a widow, one daughter and two sisters, Grace, Jennie, and John Schoonmaker of Pataukunk. Burial at Mombaccus.

is having the house that he recently bought of the Garman estate remodeled and will build an addition on. When completed it will be an up to date and a very sightly place.

Leroy and William Van Eiten have both moved in their garage for the summer and have stored the most of their furniture and will build a new house on the lot they recently bought of John Van Kleeck.

Russell Van Eiten is to build on the foundation next to Wilkinson's store. It would seem as if we will have plenty of stores.

Harry Terwilliger has moved in to his new house.

On Saturday evening, April 22, the Paterson Jubilee Singers will be at the K. of P. Hall of this place.

This is the most versatile and unique company of its kind en route.

The quartet is a favorite with the masses being equal in their rendition of classic, comic, plantation and sentimental songs.

The quartet in their character songs are so highly appreciated that they are compelled to respond several times.

In the rendition of "Steal Away to Jesus" and "Swing Low Sweet Chariot," always win their way into the hearts of the people and it is said by some to be worth the price of admission.

The quartet in their sacred songs emanate a spirit of devotion, touching the hearts of all.

The doors will be opened at 7 o'clock as a large crowd is expected, so come early to avoid the rush.

(By La Romaine)

Yards and yards of tulle and silk not makes the dance gown of this year's debutante a fascinating affair. Both light and dark shades are adopted for this purpose, though the former are generally selected by older women. One delightful gown is shown in white, the drop skirt embroidered in border effect are intricate patterns. Over this there are three pointed tunics which fall at uneven lengths. The bodice is quite simple, showing a deep crissed girly of the spangled embroidery and angel wing grapes of silk net.

## HIGHLAND.

Highland, April 6.—The funeral services of Reuben S. Dawald were held from the home of his brother, Frank, at Oakes, Tuesday at 2:30. The Rev. J. C. Coddington, pastor of the M. E. Church here, officiated. The bearers were from this place, and were members of the Odd Fellows' organization, to which the deceased belonged. The services were largely attended. He was well known, and was a good-hearted, social fellow. He will be missed by many families, where he always did painting, papering and decorating. He is survived by his mother and two brothers, who have the heartfelt sympathy of friends in their hour of trouble. There were many beautiful floral emblems from relatives, friends and the lodges. He had been ill for several weeks and passed away at St. Francis' Hospital, Poughkeepsie, where he had been under treatment. The interment was in Highland cemetery, with W. E. Wilcox as funeral director.

The Music Study Club gave a program in the Presbyterian Church on Tuesday. All who were present enjoyed it. Mrs. Philip Wilcox is visiting in Syracuse for a short time. Mrs. Fred Decker has been ill at her home on North Road for a few weeks. Her many friends are anxious to see her around again. At present she is improving slowly. Mrs. Ennist Gerlich was in Poughkeepsie Tuesday. Mrs. R. H. Decker was a visitor in Poughkeepsie this week. Mrs. Edward Griffin of Vineyard avenue has as her guest her sister from New Jersey. Miss Bertha Dimsey was a caller on relatives in Lloyd last Sunday. It is expected that on April 16th many Masons from here will visit the Masonic Home in Ulster, which will be a grand treat, and we hope the members of the fraternity will embrace this opportunity to visit the home, and see the way it is conducted, for it is a grand place. Mr. and Mrs. Irving Hornbeck of Kingston were visiting relatives here last week. Mrs. Harry Schumacher of Brooklyn has been a guest for some time of her parents on Vineyard avenue, and she left for her home this week, as her husband is expected home from his southern trip. He has been absent on business for some time. Four of our young men from here were in Newburgh Sunday evening, and enjoyed one of the fine dinners at the Palatine Hotel.

J. W. Feeter and Fred Metcalf were in Little Falls Monday, attending the funeral services of the late William Ford, who was a brother of Mrs. A. P. Ford of this place, who was also attending the funeral. Mr. and Mrs. F. Styles of North Road had as their guest the week end H. Bailey of Mount Vernon. Mrs. Philip Schantz was hostess to the members of the U. D. Society last Saturday afternoon. They amused themselves by being very industrious with sewing and fancy work. At a late hour she served a bountiful supply of eatables, which was very greatly enjoyed, and the members declared Mrs. Schantz a charming hostess.

April Fool Frolic in Presbyterian Church was much enjoyed by quite a number last Saturday evening. We were glad to sample some of the clam chowder at the supper at the Presbyterian Church last Tuesday evening week. Also glad to state they made quite a nice sum of money.

Mr. and Mrs. Herbert Elting have been enjoying a few days for business and pleasure in the metropolis.

Mr. and Mrs. J. P. Whitley have now moved from their town place to Grand street, where once again they assume charge of the famous Whitley house. They always accommodate many city people through the heated term and generally have one of the boat crews. After people go there one season they are on hand for the next and every one knows the good reputation of the house and the splendid service, with Mrs. Whitley at the head.

Miss Ethel Wilcox of New York city was the week end guest of her parents, Mr. and Mrs. Elliot Wilcox. Mr. and Mrs. Louis Martin of Grand street have been entertaining Mrs. C. Traver of Catskill for a short time. She is a sister of Mrs. Martin.

Mr. M. Terpening of West Park spent Sunday last in this place calling on friends.

Mrs. Louis Martin of this place and Mrs. C. Traver of Catskill visited relatives in Milton the past week.

Mr. and Mrs. James Relyea have been out of town for a visit of several days.

Mr. and Mrs. Martin Spright and Miss M. M. Martin of Ulster, Ontario as their guest for a few days recently.

Capt. R. H. Decker of this place attended the automobile show in Kingston last week and was pleased with the display of cars and said everything passed off finely.

John Burroughs of West Park was a caller here on Friday. He is looking fine and he has traveled around considerable this past winter.

Mr. and Mrs. J. W. Feeter had as their guest for the week end Mrs. Russell Conklinham of Ellenville. Mr. W. Feeter attended the auto show in Kingston last Thursday and was a guest at a dinner given in honor of the convention and it was a very delightful affair.

Mr. and Mrs. Charles Bickert of Danbury, Conn., were guests several days last week of Mr. and Mrs. W. E. Wilcox, parents of Mrs. Bickert. Many teachers from this place were in New Paltz last week attending the teachers' institute. It was very instructive and all enjoyed it greatly. Mrs. H. J. Pratt had as guests last week from New Paltz, Mrs. Du Bois and Miss Hasbrouck. John Burroughs, the naturalist and author, who resides at West Park, celebrated his 72nd birthday on Monday. He is a noted place and a noted man occupies it. He received friends who with many who could not visit him extend their

congratulations and wish for him health and happiness and many returns of happy birthdays in the future.

Mr. and Mrs. Charles Farnum of Washington avenue had guests from Brooklyn and Walden for the week end. Mrs. Farnum's parents are making their home with them.

The Camp Fire Girls gave their play in Feeter's Hall last Friday evening, March 31, to a full house. It was a good play and the girls did finely. All took their parts well and we think it is a fine thing for the school girls to undertake these affairs. The art of reading should indeed be recognized in schools as a means of developing that responsiveness of spirit which constitutes dramatic instinct. The true standard of speech is usage of words with mind and heart working together. They are going to repeat their play on the 14th.

Mrs. Walter Constable, who has been ill at her home for five weeks, is improving slowly. Her many friends are anxious to learn of her improvement and hope to hear of her speedy recovery.

Last Friday evening the elite of the place assembled at "Woodside" the home of Mr. and Mrs. W. E. Wilcox for a reception. About 75 guests were present and it was an evening of most enjoyable festivities. Their beautiful residence was brightly illuminated to receive the guests, who were invited and helped to celebrate the 10th anniversary of their marriage. The rooms were artistically decorated with carnations, roses, ferns and other potted plants, which presented a charming combination of beauty and taste. The guests were received most cordially by Mr. and Mrs. Wilcox and everyone most heartily enjoyed every moment.

About 9 o'clock most tempting and delicious refreshments were served in abundance and all seemed to enjoy the good things provided with an appreciation which they deserved, and after the repast the company was most delightfully entertained by bewitching and stirring music from the large Victrola and soprano solos and instrumental selections sweetly rendered by Miss Ethel Wilcox and her like, natural, piquant, and delicate. The pleasure of the guests. Among the guests were some from Poughkeepsie, Ellenville and Danbury, Conn. Midnight hours warned the people that morning was on its way and all who came so gaily to this home, very reluctantly left, but as they did so, they left good wishes for the future prosperity and happiness of these hospitable friends and hope they may be permitted to walk together over the bridge that leads to the golden and diamond wedding.

Miss Kathryn Schantz entertained week end guests from Lloyd.

Engagement of Edith Elting of Kingston has been announced.

M. E. Church choir is now preparing some Easter music under direction of Howard E. Wilcox. All expect to hear something first class.

Time and space would fail to tell of all that happened Wednesday and Thursday week at the W. C. T. U. convention held in the Presbyterian Church. The white ribbon people were just in their element. Every session was filled with interest. Mrs. K. Livingston was the prominent speaker and she seemed to radiate gladness and good cheer among the people. She enjoys sitting service to the people. Her preparation by her stirring address. They say that women never lack for talk, but I must say she talked more and faster than any woman I have known and that is saying a good deal for some of the prettiest girls in the city. Mrs. Livingston is in contact with sunshine will be thrown across the pathway of all. She is a progressive woman and interested in temperance work and people in the work here ought to be inspired for better work and to press forward to goals which they may not see close at hand, but in the distance, and by perseverance will accomplish the desired end. The ladies served a fine dinner both days and the delegates were enthusiastic over their being so finely entertained. It was a decided temperance success.

Miss Florence Kelsey, who is at present teaching in Poughkeepsie High School, has been spending a few days at her home here on Main street.

Mrs. Suzanne E. Decker has an invitation for a visit at Ellenville, Saugerties and Kingston, for order of Eastern Star. These visits are for official visits of district deputies and assistant grand lecturers and one for the grand officers. These chapters are doing fine work and have large membership.

**MT. TREMPER.**  
Mt. Tremper, April 5.—A lecture was given in the church hall by the Rev. Mr. Blakesney of Pine Hill on "War," and stereoscopic views were shown on Wednesday evening, the 4th. Refreshments were served at the close.

Rehearsals are being held in the hall by the young people that are getting on the play "The Country Doctor."

James Rion and son Charles were in Tannersville on Tuesday.

Mrs. Albert Lane and Mr. and Mrs. Winslow Osborn of Mt. Pleasant spent Sunday as guests of Mr. and Mrs. John Gardner.

Miss Ruth DeVal of New York city and Mr. Boecker and sons, Waldo and Richard, and Albert Boebler of Brooklyn came here by auto on Saturday and were guests of Miss Gertrude Silvert until Sunday afternoon, when they returned to the city. They made the trip each way in five hours and had no accident, although they found the roads in rather bad shape.

Sherman Lockwood was in Kingston on business on Saturday.

Mrs. Harry Ecker was in Kingston on Saturday.

James Dunnigan received a box of orange blossoms and roses from Mr. and Mrs. George Dunnigan of California recently and they were beautiful. Such remembrances are very nice to receive.

Mr. and Mrs. L. S. Randall were in Poughkeepsie Saturday.

**Husbands Outclass Riches.**  
A census taken in a co-educational institute disclosed the fact that the dear girls were more interested in securing husbands than riches. Another demonstration, obviously, of the fallacy of the higher education.

## PREPARE GEESSE FOR MARKET

Many Farm Flocks Would Pay Handsomely If Proper Attention Paid to Fattening of Fowls.

There are many reasons why geese and ducks are not more popular table fowls than they are, but the chief reason is that they are so poorly fitted for the market.

Many a farm flock of ducks and geese would pay a more handsome profit if some attention was paid to the fattening of it.

First, a young duck or goose must be had for fattening. Stock that is too old is not sweet and tender as it should be. One cannot build up a reputation by selling it.

Old stock, if less than three or four seasons of age, is better for breeding purposes than for market.

Youngsters hatched from the eggs of yearling and two-year-old ducks, and geese are the most vigorous.

A crate with a slatted bottom and set up off the floor or ground in an open shed is an ideal arrangement for winter fattening.

Provide a trough to fit in front of each crate and let the birds feed through the slats.

Arrange to give plenty of water or skim milk at all times. Dairy wastes can be well utilized in mixing up mash foods for fattening the fowls.

Do not crowd too many fowls in a crate. Let there be room enough for each bird to stand at the trough without tramping each other.

The birds should be provided with plenty of sharp gravel or other grit. Start them on full feed at once and keep them on it for 18 days at least.

A duck or goose will lay on a large amount of fat in this time if properly fed. It is about as long as a water fowl can be fed with profit.

Feed a mash food of corn chop and oats three times daily. Let the base of this mash be at lower cut alfalfa or bran. It must have a bulky base of some kind in order to do the fowl the most good. Corn meal alone is not a good fattener.

The idea of feeding mash food is that it puts more flesh on the fowls because it is more easily assimilated by the fowls' system.

Ducks and geese well fitted are always in big demand in the cities. Culls and poor and old stock will never bring over market prices.

## EXERCISE FOR LAYING HENS

When Feeding Grain Scatter It Far and Wide and Make Fowls Hustle to Gather It Up.

In the first place do not overfeed. Bear in mind that if a hen is to be kept in laying condition, she must have exercise. When you feed grain, do not put it in a trough where the hens can stand and eat their fill, but scatter it far and wide, as the hens will find every grain. If the snow is on the ground after the cold season sets in, throw the grain in leaves or cut straw, so as to keep them busy. Do not feed grain exclusively, but give a variety. Allow ground meat or meat and bone fresh from the butcher, three times a week. Vary the grain, feeding corn, wheat and oats, and give cabbage, cooked turnips, clover leaves or any other food that the hens will eat.

## FIVE SOUND POULTRY RULES

Keep Nests Clean—Gather Eggs Twice Daily and Store in Cool Place—Sell the Roosters.

It is urged that all farmers and poultrymen adhere strictly to the following rules in handling their poultry and eggs:

1. Keep the nests clean; provide one nest for every four hens.

2. Gather the eggs twice daily.

3. Keep the eggs in a cool, dry room or cellar.

4. Market the eggs at least twice a week.

5. Sell, kill, or confine all male birds as soon as the hatching season is over.

## Feathers From Geese.

The big Toulouse goose should produce you something over a dollar's worth of feathers a year even where the feather market is known to be cheap, as in the far-out country places. Add this to its other profit and you have a valuable asset for profit in such a goose.

## THEY AGREED TO DISAGREE

Theodore Humphrey Arrested on Complaint of Wife—Agree to Separate—Wife Don't Want His Money.

Theodore Humphrey, a carpenter residing on Liberty street, was arrested late Wednesday afternoon by Policeman Shadrach charged with being drunk and assaulting his wife. The complaint that led to Mr. Humphrey's arrest was made by the wife who telephoned to police headquarters that afternoon.

This morning Mr. Humphrey was arraigned before Recorder Lang and Mrs. Humphrey appeared to press the charge. She said that her husband was continually nagging at her and that they were unable to live in peace. She said that he worked but seldom and that she and her daughter kept the house. Coming down to the assault she said that her husband threatened to hit her and she threw him down on the floor and then ran outdoors and he chased her and she telephoned to the police.

Mr. Humphrey said that he had been working Wednesday morning and there being no work that afternoon he had laid down on the sofa and that his wife came in and grasped him by the throat, and she tore his vest and pulled his collar and necktie off.

Mrs. Humphrey said she had marks on her neck and head where her husband had hit her.

Mr. Humphrey said that if it was satisfactory he was willing to leave his wife alone and would not darken her door again if he was allowed to go and get his tools and his clothes. He said his wife could keep the furniture that was in the house.

The court asked them why they did not separate if they could not live in peace.

Mr. Humphrey replied that he was willing to leave home as he could support himself.

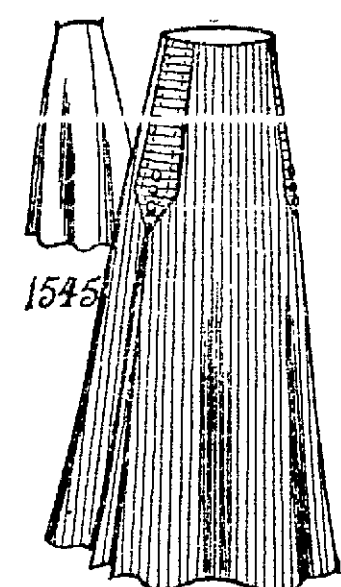

Mrs. Humphrey said that she was independent of her husband and that he very seldom gave her any money.

He said that he would leave her and that when he was working he would be willing to contribute some money toward her support.

"I don't want your money, replied Mrs. Humphrey with spirit.

After hearing both sides of the story Recorder Lang found Mr. Humphrey guilty and suspended sentence pending good behavior. Mr. Humphrey was discharged with the understanding that he would send an expressman to the house and that his wife would have his tools and clothes packed up and ready for the expressman to remove them to his new address.

### OUR DAILY PATTERN.

1545—Ladies' Three Piece Skirt, with Tab Trimming.

Striped, wool poplin, checked or puffed skirt, serge, cheviot, corduroy and broadcloth, all are very well adapted for this design. The skirt is cut with graceful flare and ample fullness. The sides show deep plaits and a tab trimming, which may be omitted. The skirt is finished at normal waistline. The pattern is cut in 6 sizes: 22, 24, 26, 28, 30 and 32 inches waist measure. It requires 3 1/2 yards of 44 inch material for a 24 inch size, which measures 2 1/4 yards at the lower edge.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

\$3,500,000 BOSTON HEIRESS TO BE BRIDE OF NEW YORK MAN.

Boston, April 6.—Announcement of the engagement of Miss Phyllis Sears, who recently inherited \$3,500,000, to Bayard Tuckerman, Jr., son of Bayard Tuckerman, of New York, has been made here.

Miss Sears is the daughter of Herbert Mason Sears and the grand daughter of the late Francis Bartlett, lawyer and patron of art, whose fortune was estimated at many millions. His daughter, Mrs. Sears, who died eight years ago, left \$3,500,000 to Miss Phyllis Sears, and other bequests brought the girl's inheritance up to \$3,500,000.

Mr. Tuckerman was graduated from Harvard in 1911, and has since made his home in Boston. He is in the real estate business. His father is chairman of the board of race stewards of the Country Club.

### Spread the News.

When you have decided that that unoccupied room in your home might just as well as not be bringing you a good weekly revenue to help out with the rent, spread the news that you want a roomer.

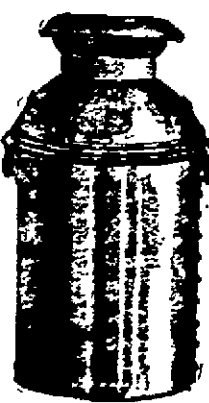

Of course, don't spread this news by putting an old fashioned, unsightly, cheap window sign in your house but spread it in the modern way by running a little Freeman Want Ad, telling what kind of a room you have for rent, how much you want for it and the location of your house.

This method spreads the news like wildfire in 24 hours and, inside of another day, you will have a tenant.

## ROAD BUILDERS IN BANKRUPTCY

Ruddy & Saunders Construction Company Failed to Pay Bills Due Creditors in This City.

An involuntary petition in bankruptcy has been filed in the United States District Court at New York, for the Northern District of New York, against the Ruddy & Saunders Construction Company of Troy, who constructed the state road from the Lloyd town line to East Park last year.

The petitioning creditors are A. H. Chambers, the Hudson River Bridge Company and Watts & Tammany of this city.

The acts of bankruptcy alleged are transfers of property with intent to prefer and also to hinder, delay or defraud its creditors, also suffered or permitted H. W. Pallen's Sons, a creditor, to obtain a preference through legal proceedings, viz., obtain a judgment, also transferred and assigned certain money due it from the highway department.

The Ruddy & Saunders Construction Company drew all moneys due them from the highway department, and sold their property and forced to pay their creditors. The matter came up before Judge Jenkins in county court some time ago and was adjourned until some future date.

The company at the time of the first trouble were constructing a road in Dutchess county and a few weeks ago all of the machinery was taken to Troy and there was an understanding that the work would be resumed later but from present indications the people of Dutchess county will have considerable of the road before the firm will bring any machinery back to complete the job.

Some time ago the facts concerning "trifling" day for the company were told in The Freeman and the outcome was awarded with great concern by the creditors of this city.

D. G. Atkins is attorney for the petitioning creditors.

## MATTERS BEFORE THE SURROGATE

The will of Jacob Sass, late of Kingston, has been admitted to probate by Surrogate Gill. It was dated October 8, 1911, and the testator bequeaths to his son, John, the real property at 51 and 53 East Pierpont street, on the condition that he pay \$100 each to Rev. James P. Sass, Rev. Charles Sass, Augustus Sass and Anna Miller, sons and daughter of the deceased. Chris. A. Murray appeared for the executor, John Sass.

A decree was granted to Gertrude R. DuBois, as general guardian of Alice E. Meyers, a minor.

A decree was granted to Christina H. Finger, as administratrix of the estate of Phineas R. Finger, of Kingston. Joseph M. Fowler represented the administratrix.

The matter of the petition to revoke letters of administration in the estate of Harold M. Linson, late of this city, was further adjourned to April 11.

A decree was directed to be drawn setting the guardianship of Alice E. Meyers, infant, Milton O. Auchmoody is attorney for the guardian.

Final arguments were had Tuesday before Judge Jenkins as acting surrogate in the matter of the appraisal under the transfer tax law of the estate of the late S. D. Cockendall upon cross appeals taken by Emanuel Metzger for the state comptroller and Judge A. T. Clearwater for the executor, Edward Cockendall. The question which is raised is which part of the estate is taxable at the present time. The market value at this time cannot be ascertained.

## HIGH SCHOOL ATHLETES BUSY

Raymond Terwilliger was elected captain of the Kingston high school baseball team at a meeting of seventeen candidates Tuesday afternoon, winning from Sam Peyer, the other contestant by a vote of 12 to 5. Voting privileges were restricted to those who had won their letters in the national sport at Kingston or Ulster Academies or at any prep school. "T," the newly elected captain, was a star in athletics at Ulster from the moment he entered the institution. He was a sprinter on the track team in his freshman year and a member of the football squad. For several seasons he held a bunk with the baseballers at first base and was among the leaders in batting. He joined the ranks of the football candidates at the new high school in the fall and was nominated for captain, losing to Wheeler. Terwilliger was also a half back on the championship eleven.

John Dwyer has been appointed manager of the baseball nine by Principal Moulton and is working on the schedule, in which will be included the best teams along the river and inland. Troy and Albany, who proved to be good football foes, will be landed on the schedule, if Dwyer's plans do not fail.

The local baseball season started this afternoon when about forty candidates for the high school team loosened stiff muscles at the athletic field and went through the preliminaries. There is little doubt that a fast squad will be developed to keep up the high standard which the other maroon and white athletic teams have set by their good work.

Sporting folks at the high school wanted to have the football squad report for spring practice to drill the green ones in the science of the game, following the example of the colleges. Such a stunt would be instructive and valuable but baseball and track interfered, so that the idea was abandoned.

There is talk of a track team being formed but baseball practice may also interfere with this department of athletics. Several trackmen of note are now enrolled at the school and a good aggregation could be turned out if time could be given for practice. Troy will not let Kingston enter their interscholastic meet, giving the reason that we are too far distant. Dual meets probably could be arranged with other schools along the Hudson, however.

#### An Attractive Corner.

One of the attractive corners at the Trinity Church fair, April 11th and 12th, will be that occupied by the fish pond. Here pretty maidens and a number of boys in Chinese costumes will be busy disposing from their booth, which will represent a Chinese laundry, packages of all sizes and shapes. It will interest you to spend a few minutes at this laundry and incidentally to exchange your money for one of the attractive articles.

#### The Axle Broke.

One of Frank Waters's trucks loaded with railroad ties met with an accident Wednesday evening on Broadway near Maxon's baker shop when the axle on the wagon broke. The ties were spilled over the street and the driver was compelled to leave the truck there until this morning when repairs were made and the ties gathered up and taken to their destination.

#### Has Resigned.

Miss Maude Dutcher, teacher of mathematics in the Saugerties high school, has tendered her resignation, the same to become effective at the end of the school year in June. Miss Dutcher has taught in the school the past two years. She expects to take a position at Ellenville, where her home is, next year.

## MENKE'S DAILY SPORTING LETTER

(By Frank G. Menke.)

New York, April 6.—The newest chapter in the remarkable history of Peter the Great, the trotting stallion, was written the other day when W. E. D. Stokes, of New York, sold him to Stoughton Fletcher, the California horseman, for \$50,000. That's a huge price for any horse, yet the figure seems more amazing when one recalls that the sire is 21 years old—an age far beyond the average for horses.

There are some folks who think Fletcher gambled desperately when he paid \$50,000 for the horse—but Fletcher has different views. He is confident that Peter the Great will live at least three or four years longer and that during that stretch of time he will get back his \$50,000—and \$50,000 more—through breeding the animal.

#### Romantic History.

The story of Peter the Great is a real romance of the turf; one that deals with the most remarkable stallion of this era and probably of all time.

The late B. D. Streeter, of Kalamazoo, Mich., bred him and then sent him into the big Kentucky Futurity for three year olds. Peter the Great romped home an easy winner. A short time later he was sold for a fair sum to the late J. Malcolm Forbes, of Boston.

Year after year, Peter the Great showed greater bursts of speed. In 1899 he went to his record mark—2:27 1/4—on the Empire City track in New York. Soon afterward, Forbes ordered him placed in stud, but no real effort was made to breed him to the top-notch mares. The great Bingen was in the same stable and the fastest mares were mated with him.

#### Stokes Gets Bargain.

Somewhere along in 1903 or 1904, Forbes put Peter the Great on the auction block in New York. Stokes, impressed with the "gets" of the horse during the short time he was in stud, bid up to \$3,000 or \$4,000 for him—and Peter the Great became the property of the New York millionaire.

Immediately afterward the stallion was placed in stud again and since then has sired the fastest family of trotters in history. Thirty-six of his foals have stepped in 2:10 or better. The record book shows that he has among his offsprings 204 trotters with a record better than standard—2:30—and 27 pacers which have gone in 2:25 or better.

The wonderful Peter Mac is one of his sons. The Mac horse has a record now of 2:03 1/4 and is looked to do 2:02 or better this summer. Peter Volo, 2:02 is another. Peter the Great foal. As a two year old, Peter Volo raced in 2:04 1/2 and in his third year he took a record of 2:03 1/4. There are many who predict that Volo may go to two minutes before his racing days are over. When Stokes purchased the stallion no one figured that the investment would pay so well. The returns. Yet, Stokes, has cleared approximately \$200,000 through his ownership of Peter the Great. \$50,000 of that came from the sale and the rest through stud fees during the past twelve years.

#### Peculiarity of Breeding.

An odd feature about the breeding of Peter the Great is that the speed he has imparted to his children is not passed on to his grandchildren. Practically every one of Peter the Great's direct offsprings have gone to standard records. But only a few of the "gets" of the sons of Peter the Great have shown any real speed.

This is regarded as something of a phenomenon among turfmen. The speed of a sire generally passes from one generation to another. But in Peter the Great's case it is different. Among horsemen there is the belief that the speed of Peter the Great may skip a generation—that of his grandchildren—and then return again to his great grandchildren.

But whether it does or not: whether the speed sweeps down through the years that are to come, or whether it dies with his sons, the name of Peter the Great will rank among the greatest of all times.

#### "Rose O'Plymouth Town."

"Rose O'Plymouth Town," the senior class play to be staged Friday evening, April 28, in the high school is going to be an amateur production of which the city can be proud. It is a real professional play presented by a cast of eight students under the direction of Vincent Dooly of New York city. The following publicity committee will have charge of the advertising: John Church, chairman; Joe Hazen, Hazel Toole, and Lillian Herdman. There is little doubt that the play will be a success both from artistic and business standpoint.

#### Almost a Collision.

Two autos nearly collided last night at 6:30 at the corner of East Chester street and Broadway. A touring car coming up Broadway tried to turn around near the Chester street side of the avenue just as a two passenger car was driving down East Chester street. Passers-by say that the touring car turned around on two wheels.

## TRIANGLE PLAYS, 10c

TODAY AND TOMORROW

TRIANGLE KAY-BEE

TRIANGLE KEYSTONE

George Fawcett with "The Corner" Willard Mack in

"Fatty and Mabel Adrift"

One man's remorseless greed and the nemesis that overtook him in the form of one of his victims, is told in the Ince-Triangle play, "The Corner." David Waltham heads a syndicate that corners the food supply of the nation. John Adams loses his little savings in a "run" on a bank, and his job as an engineer. He is sent to jail for stealing bread for his starving family.

In "FATTY AND MABEL ADRIFF" Roscoe Arbuckle as a farm boy and Mabel Normand as his sweet heart get married and go to spend their honeymoon by the sea. A rival of Fatty tries to break into the house, but is chased away by Fatty's dog, Fido.
